HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Table 1 : Demographics and clinical characteristics of the longitudinal PiB-PET sample. Memory and Non-Memory Z-Scores are composite neuropsychological scores, obtained from extensive neuropsychological testing (see Pike et al., 2007 and Villemagne et al., 2011 for details).
