HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

CORRECTION

Open Access

Correction: Dispelling myths about rare disease registry system development

Matthew Bellgard^{1*}, Christophe Beroud^{2,3}, Kay Parkinson⁴, Tess Harris⁵, Segolene Ayme⁶, Gareth Baynam^{7,8,9}, Tarun Weeramanthri¹⁰, Hugh Dawkins^{1,10,11,12} and Adam Hunter¹

Correction

After publication of this work [1], we noted that we inadvertently failed to include important Acknowledgements in our final version of the manuscript. Please see below the modification:

Acknowledgements

The authors received funding from the Australian National Health and Medical Research Council (APP1055319) and EU FP7 Project (HEALTH.2012.2.1.1-1-C): RD Connect: An integrated platform connecting databases, registries, biobanks and clinical bioinformatics for rare disease research. The authors wish to acknowledge their involvement in the International Rare Disease Research Consortium.

Submit your next manuscript to BioMed Central and take full advantage of:

- Convenient online submission
- Thorough peer review
- No space constraints or color figure charges
- Immediate publication on acceptance
- Inclusion in PubMed, CAS, Scopus and Google Scholar
- Research which is freely available for redistribution
