Upon publication of the original article [1], it was noticed that the title was incorrect. Instead of 'critical', it should read 'critically', and therefore, the correct title should be:

Blood platelets and sepsis pathophysiology: A new therapeutic prospect in critically ill patients?

Furthermore, the word 'liver' on page 5, line 38 of the PDF, in the sentence 'This is remarkably illustrated by the requirement of platelets in liver regeneration' should in fact be 'lung'.
